KERASAN.  
DA OLTRE 50 ANNI,  
QUALITÀ, DESIGN E INNOVAZIONE  
NELL'ARREDOBAGNO.

Kerasan è una delle prime aziende del polo ceramico di Civita Castellana (VT). Fondata nel 1960 è specializzata nella produzione di sanitari in pregiata ceramica. Oggi l'azienda è presente sui principali mercati internazionali con collezioni bagno complete di arredi, accessori e rubinetteria.

Da oltre 50 anni Kerasan realizza prodotti di qualità non solo perché lo richiede il mercato, ma perché produrre sanitari di pregio, apprezzati in tutto il mondo, è prima di tutto una passione che cresce giorno dopo giorno e che riempie di orgoglio ogni singola persona di questa grande realtà. Questo è il pensiero che ha guidato l'azienda ieri e che la guiderà anche domani.

Attraverso un moderno complesso industriale che si sviluppa su circa 14.000 mq, Kerasan esegue internamente ogni fase della lavorazione: dall'ideazione del prodotto alla progettazione e realizzazione dello stesso. Tutto ciò è reso possibile grazie ad un impianto con capacità produttiva fino a 1000 elementi ceramici al giorno e ad un avanzato reparto di modellazione che utilizza software all'avanguardia capaci di ridurre i tempi e semplificare i processi di elaborazione del prototipo e di generazione dello stampo.

**Kerasan. For over 50 years, quality, design and innovation in bathroom furnishings.**

Kerasan was one of the first companies in the ceramics base in Civita Castellana (VT). It was founded in 1960, and specialises in the manufacture of sophisticated ceramic sanitary fixtures. The company can now be found in the main international markets, with complete bathroom collections of furnishings, accessories and fittings.

For over 50 years, Kerasan has been producing high-quality products, not only because of market requirements, but because the production of sophisticated sanitary fixtures, appreciated around the world, is above all a passion that grows day by day, and fills every single person involved in this large consideration with pride. This is the thinking that has always driven and continues to drive the company forward.

At our modern industrial facility covering approximately 14,000 m<sup>2</sup>, Kerasan completes every stage of manufacturing internally, from product concept to design and construction. All this is made possible by a system with the capacity to manufacture up to 1,000 ceramic items per day, and an advanced modelling department, using cutting-edge software to reduce timescales and streamline the processes of prototyping and mould generation.

La qualità di ogni prodotto parte dalla selezione delle materie prime, analizzate e deferrizzate direttamente in azienda, prima della preparazione degli impasti. La maggior parte degli elementi di pregiata ceramica sanitaria vengono realizzati in Vitreous-china mentre il fire-clay (meno soggetto a ritiro da cottura) viene utilizzato su piatti doccia o elementi di grandi dimensioni.

Fra i dettagli che sottolineano la ricerca qualitativa dell'azienda troviamo la smaltatura interna dei vasi (sifone, brida esterna) ed un complesso sistema di test finali per verificare prove di carico su sanitari sospesi, lavabi e la funzionalità degli scarichi di ogni vaso.

The quality of every product starts from the selection of raw materials, which are analysed and impurities removed directly in-house, before the clay is prepared. Most sophisticated ceramic sanitary fixtures are made of vitreous china, whereas fire clay (although subject to shrinkage in the kiln) is used for shower bases or large items.

The details proving the company's quest for quality include in-house wc pan enamelling (siphon, outer rim) and a complex system of final tests to perform load tests on hanging fixtures, washbasins and the flushing ability of every wc pan.

## MADE IN KERASAN SIGNIFICA MADE IN ITALY.

---

Kerasan investe e produce solo in Italia, dove ogni prodotto è pensato, disegnato, realizzato, per garantire uno standard di eccellenza ineguagliabile: una filosofia produttiva che coniuga il sapere tradizionale con le più recenti tecnologie esistenti nel settore. La ceramica qui è la protagonista assoluta, generatrice di infinite soluzioni per un mondo del bagno dal design che fa della funzionalità ed esclusività il suo segno distintivo.

### **Made by Kerasan = Made in Italy**

Kerasan invests and manufactures only in Italy, where every product is conceived, designed and produced to ensure an unrivalled excellence. This manufacturing philosophy combines traditional know-how with the latest technologies in the industry. Ceramics are the true star of the show here, generating as they do infinite solutions for a world of designer bathrooms, marked out by their functionality and exclusivity.

## QUALITÀ E TRACCIABILITÀ SONO SEMPRE SOTTO CONTROLLO.

La qualità e la sicurezza della produzione e del servizio verso il cliente è parte integrante del percorso produttivo aziendale di Kerasan; per questo ogni prodotto è garanzia di affidabilità e durata nel tempo, ma anche di grande estetica e funzionalità.

Selezione di materie prime purissime, prototipazione accurata e rigorosa, severissimi controlli interni di qualità, l'uso di tecnologie all'avanguardia e una gestione completa dell'intero processo produttivo: è così che l'azienda dà vita a prodotti unici e sicuri, grazie anche alla tracciatura completa di tutta la filiera con codice a barre, che garantisce al cliente la trasparenza dall'origine al prodotto finito.

L'azienda ha la certificazione di qualità UNI EN ISO 9001:2008 e rispetta la conformità alle norme europee EN 997 e australiane AS1172.

### **Quality and traceability are always under control**

The quality and safety of the production process and customer services is an integral part of Kerasan's internal processes. Every product thus guarantees reliability and durability, with a great look and functionality too. Selection of the purest raw materials, accurate and rigorous prototyping, the strictest internal quality controls, the use of cutting-edge technologies and complete management of the entire production process: this is how the company creates unique, safe products. We also fully track the entire production chain with bar codes, guaranteeing to the end client transparency from the origin to the finished product.

The company is UNI EN ISO 9001:2008-certified, and complies with the European EN 997 and Australian AS1172 regulations.

## LA TECNOLOGIA È DIVENTATA SOSTENIBILE.

Oggi la tecnologia è nulla se non è anche sostenibile. Per questo Kerasan ha progettato, per tutte le sue collezioni, una soluzione innovativa capace di ridurre gli sprechi d'acqua: un sistema di scarico con 4,5 litri. Ciò garantisce un risparmio idrico notevole ad ogni utilizzo. L'uso abbinato tra wc e cassetta di scarico è conforme ai requisiti richiesti per i vasi di classe 2 in base alla norma EN 997 (standard europeo per i wc). Rispetto ai sanitari classificati in classe 1, tale norma prevede che i wc siano caratterizzati da maggiori prestazioni e che non consumino più di 6 litri per lo scarico.

### **Technology has become sustainable.**

Sustainability is a vital concept for today's technology. This is why Kerasan has designed an innovative solution for all its collections, to reduce waste water: a 4.5-litre flushing system, to ensure substantial water savings at every use.

The combination of the wc pan and cistern complies with class 2 fixtures according to regulation EN 997, the European standard for toilets. Compared to fixtures under class 1, this regulation requires that a toilet has more advanced features and does not use more than 6 litres of water per flush.

## TECNOLOGIA, DESIGN E PULIZIA SI FONDONO INSIEME: IL SISTEMA NORIM.

NORIM è il sistema innovativo di Kerasan che migliora l'igiene e semplifica la pulizia del wc con un notevole risparmio d'acqua. L'eliminazione della brida garantisce una distribuzione uniforme dell'acqua su tutta la superficie: il vaso viene pulito con maggiore forza, senza spruzzi e la rumorosità è ridotta al minimo. Per un sanitario più bello e funzionale, più a lungo.

### **Technology, design and cleanliness come together in the NORIM system.**

NORIM is Kerasan's innovative system to improve hygiene and streamline the cleaning of the toilet, with considerable water savings. The removal of the rim ensures uniform distribution of water across the entire surface. The wc pan is cleaned with greater strength, with no splashing and noise reduced to a minimum. For a more beautiful and functional bathroom, in the longer term.

## DESIGNERS

Guardare al futuro per Kerasan significa stupire attraverso soluzioni innovative, dare vita a forme belle da vedere e semplici da utilizzare, per arricchire il bagno di unicità e pregio e renderlo un luogo speciale da vivere con piacevolezza e relax.

E se da oltre 50 anni Kerasan riesce nel suo intento, è grazie anche ad un team di designers di fama internazionale che, con il loro talento e la loro passione pensano, sviluppano e creano prodotti all'avanguardia sempre all'altezza di ogni gusto, desiderio e stile; proposte che tagliano il traguardo dell'eccellenza e ogni record di bellezza e funzionalità.

### Designers

Our long-term view at Kerasan consists of impressing with innovative solutions and creating beautiful yet easy-to-use fixtures, to enrich the bathroom with uniqueness and sophistication, making it a special place to spend a pleasant, relaxing moment.

Kerasan's 50-year success in these intentions also lies in our internationally-renowned team of designers. Their talent and passion for the concept, development and creation of cutting-edge products keeps up with every taste, requirement and style, crossing thresholds of excellence and beating every record in beauty and functionality.

Istruzioni di montaggio VASCA ACQUATEC  
Installation instructions for BATH ACQUATEC

**PREDISPOSIZIONE DEL PAVIMENTO**

Predisporre uno scasso nel massetto, rispettando accuratamente tutte le indicazioni indicate in figura. Le quote si intendono a pavimentazione ultimata. Posizionare un tubo di scarico Ø4cm come illustrato.

**FLOOR SETTING**

Cut an area for the drainage system in the floor (after having prepared the sand/cement mixture). Carefully follow the measurements as shown in the drawing (they are meant after flooring). Place a Ø4cm outlet pipe as shown.

**3750** Vasca in pietra luce 80x170

Pietraluce bath-tub 80x170

**3751** Ripiano in legno naturale per vasca art. 3750

Natural wood bath shelf for item 3750

\* richiedi in azienda il file prima di realizzare l'impianto idraulico.  
\* before making the plumbing, ask to the company the technical drawing for the correct installation

**Istruzioni per il montaggio della vasca ACQUATEC / Installation instructions for WASH ACQUATEC**

Attenzione : durante il montaggio usare prudenza per non danneggiare il pavimento/Notes : use special caution during the installation to avoid floor damage.

01 - Posizionare il telaio in dotazione sul pavimento allineandolo come in figura allo scasso realizzato precedentemente.  
01 - Place the metal frame on the floor; center it with the hole as shown in the picture.

02 - Tracciare dei segni sul pavimento in corrispondenza dei tre fori del telaio.  
02 - Mark the floor in proximity to the three slots on the metal frame.

03 - Con un trapano eseguire sul pavimento tre fori (Ø10mm - profondità 6,5cm) nei punti segnati in precedenza.  
03 - Drill three holes (Ø10mm, depth 6,5cm) in the reference marks previously done.

04 - Fissare il telaio al pavimento con i tre fisher in dotazione.  
04 - Fix the frame on the holes with the three fishers included in the packing.

05 - Posizionare il sifone con la piletta sulle due forchette del telaio.  
05 - Place the siphon and the drain on the frame.

06 - Eseguire il collegamento allo scarico.  
06 - Proceed with the drainage connections.

07 - Sollevare la vasca con due fasce come in figura.  
07 - Lift the wash with two bends as shown in the picture.

11 - Fissare la ghiera alla piletta mediante l'apposita vite; stringere fino a schiacciare la guarnizione.  
11 - Fit the ring nut to the drain by the screw included in the packing; tighten the screw until the gasket is compressed.

12 - Avvitare il tappo alla ghiera; premendolo si apre e si chiude lo scarico.  
12 - Screw the cap to the ring nut; you can open/close it by pushing.

LUXURY *Waldorf* INSPIRATIONS  
Design Massimiliano  
Cicconi

Lusso da primi anni del '900, architettura neo-gotica americana, linee nobili e raffinate: sono tante le suggestioni che il nome Waldorf evoca. Kerasan ha reinterpretato proprio queste ispirazioni, per creare una collezione di sanitari di alto livello estetico e qualitativo, che trovano la loro collocazione ideale in ambienti arredati con grande eleganza, sia tradizionale sia contemporanea.

Gli elementi caratterizzanti sono la forma rettangolare ammorbidita da angoli stondati e bordi a doppio spessore, che richiamano uno stile classico e monumentale. Articolata in tutti gli elementi del bagno, la nuova collezione Waldorf si pone al vertice della gamma di sanitari firmati Kerasan.

Early twentieth-century luxury, neo-Gothic, American architecture and noble, elegant lines: just a few of the many styles suggested by the name t. Kerasan has re-elaborated these inspirations to create a collection of exquisite, high-quality sanitaryware which is ideal with very elegant furnishings, both traditional and modern. Its main features are the rectangular shape which is softened by rounded corners, and extra thick edges which evoke a classic, monumental style. The new collection by Waldorf includes all bathroom elements and represents the ultimate of Kerasan's range of sanitaryware.

# L'Acrilico. Sofisticata lucentezza.

Acrylic. Sophisticated brilliance.

L'acrilico è tra i materiali sintetici maggiormente adoperati per le vasche da bagno. È inoltre il materiale più adatto in quanto ricco di caratteristiche che ottimizzano l'esperienza bagno, è infatti gradevole al tatto, caldo, non poroso, quindi facile da pulire (è sufficiente utilizzare un panno umido o, per lo sporco più ostinato, miscelato con un comune sapone per i piatti) e, non meno importante, antibatterico. Trasmette una gradevole sensazione di piacere al tatto, garantisce un efficiente isolamento termico. Il calore dell'acqua non si disperde e rimane costante nel tempo. Grazie alla sua lucentezza permette l'abbinamento con i sanitari in ceramica per un armonioso arredamento del bagno. L'acrilico sanitario ha un colore uniforme ed è resistente ai raggi UV. Non ingiallisce nel tempo. Un altro elemento a favore di questo materiale è dato dal fatto che in caso di graffi può essere levigato e lucidato grazie a degli appositi kit forniti da Colacril, che permettono il ripristino dell'originaria lucentezza del prodotto.

Acrylic is among the most common synthetic materials used in manufacturing bathtubs. It is suitable for this purpose since it is rich in characteristics that optimize the bathing experience. Acrylic is pleasant to the touch, warm, not porous and therefore easy to clean (it is sufficient to wipe with a damp cloth, or for more stubborn stains, clean using dish-washing liquid) and last but not least, it has anti-bacteria properties. It transmits a sense of pleasure to the touch, guarantees thermal insulation: permitting warm bath water to maintain its temperature longer. Thanks to its brilliant finish, it can be combined with ceramic bathroom fixtures for a harmonious bathroom furnishing. Sanitary acrylic has color uniformity and is resistant to UV rays; not yellowing over time. Another element in factor of this material can be repaired. Scratches can be removed by fine sanding and polishing with kits supplied by Colacril. Not only can scratches be eliminated but the bathtub returns to its original brilliance.

Largamente utilizzato per le versioni idromassaggio, grazie alla sua facile e versatile lavorabilità trova grande applicazione nelle vasche da bagno dal design più studiato e ricercato.

It is widely used for hydro-massage bathtubs. Thanks to its easy and versatile workability, it is a preferred material for bathtubs with a sophisticated design.

## **WALDORF**

1670 x 820 x h 650 mm

WALDORF è una vasca importante, riecheggia le forme delle gondole e come queste invita a farsi cullare dall'acqua in una posizione comoda e protetta, con i suoi bordi alti e sicuri. La sua presenza scultorea le permette di essere inserita in contesti classici e moderni, in quegli ambienti bagno ricercati che richiedono oggetti di grande personalità e al contempo regalano lunghi momenti alla cura di sé.

WALDORF is an important bathtub, it echoes the shape of the gondolas and, just like them, it invites you to be cradled by water, in a comfortable and protected position, with its tall and safe sides. Venezia's sculpture presence allows it to be placed in both classic and modern settings. Perfect for those sought after bathroom environments that require products with strong personality and at the same time able to dedicate long moments for personal care.

# Il Polymineral. Tra purezza e resistenza.

Polymineral. Between purity and strength.

Il POLYMINERAL (SOLID SURFACE) è un materiale solido e resistente, ma allo stesso tempo estremamente duttile. Permette di ottenere giunzioni praticamente invisibili delle vasche e di essere utilizzato unitamente ai metalli e alle leghe metalliche più comuni, come quelle di alluminio. È igienico, piacevole al tatto e permette di realizzare progetti dal design elaborato.

Inodore e insapore è biologicamente puro e idoneo al contatto con alimenti, tanto da essere considerato il più igienico tra i materiali da rivestimento. Per questo e per le sue caratteristiche di robustezza e durata viene già utilizzato nelle superfici di lavoro, in ambienti pubblici, banche, studi medici, aeroporti.

POLYMINERAL (SOLID SURFACE) is a solid and strong material that is also ductile. During the production process it is possible to obtain almost invisible joints in the bathtubs and can also be coupled with the most common metal alloys; such as aluminum. It is hygienic, pleasant to the touch and permits to manufacture elaborately designed projects.

Odorless, flavorless and biologically pure, Polymineral is even suitable for food storage. For the above reasons it is considered one of the most hygienic covering materials. The durability and robustness of Polimeral makes it an easy choice to be used for work surfaces in public environments such as banks, medical offices and airports.

Ha superato con successo i più avanzati test di resistenza al calore per questo motivo il Polymineral è adatto alla realizzazione vasche. Resistente alla luce diretta del sole, il colore del Polymineral resta immutato nel tempo con la sua caratteristica di traslucenza.

Polymineral successfully passed the most advanced heat resistance tests before being employed for bathtub production. This solid surface product is also resistant to direct sunlight and the color and translucent properties remain unvaried over time.

## G&M TONDA

ART. 7436 Ø 1200 x h 550 mm

ART. 7437 Ø 1400 x h 550 mm

Realizza il sogno della vasca freestanding centro stanza la G&M TONDA che ripropone in maniera moderna e minimale un catino in cui immergersi come in una fonte. Un modello con piletta centrale e bordo sottilissimo, può essere affiancato da un rubinetto da terra o munito di un soffione doccia centrale a soffitto.

Achieve your dream, a center room free-standing bathtub. The ROUND G&M proposes a bathing area like a natural spring, however in a moden and minimalistic key. This bath is characterized by a center drain and a very thin edge. It can be matched to floor mounted tapware and equipped with a ceiling mounted shower head.

## G&M QUADRA

ART. 7438 1200 x 1200 x h 550 mm

Ci sono delle scelte architettoniche moderne che non accettano compromessi, adottando un'estetica lineare, fortemente geometrica e ben connotata. La vasca G&M ha una forma QUADRATA, giusta per un arredo deciso e individuale, sia installata freestanding che ad angolo o a centroparete. Sta bene ovunque, decisa e senza morbidezze, ma comunque garante di comfort e comodità e di indiscutibile bellezza.

Certain modern architectural choices do not accept compromise: adopting a linear, aesthetic and strongly geometric connotations. The SQUARE G&M has a square shape, correct for a decisive and individual furnishing. Whether installed freestanding center room, corner or center wall, it will adapt itself perfectly to the bathroom setting. Even though it is a determined bathtub, lacking any form of softness, it guarantees comfort, convenience and unquestionable beauty.
